Targets

 - Request in your booking a blank screen – make sure everything stays within the black lines
- **Self-Marking**

 - When shooting is finished, targets are to be taken out of the frames and stacked in the correct pile

 - Similar to Short Siberia - slide in
 - No Turnbuckles
 - No clout nails

Markers

- **Private markers are the clubs responsibility**

- The club will be accountable for any damage/vandalism caused by private markers

- **Issues with markers**

- Bring this up at the time of the incident (not after shooting has finished) by contacting the range office (channel 16 on radio or ext 152). We will then resolve the problem in a timely manner
- Markers must pass an assessment before being hired. This involves being able to mark the target in an average of 20 seconds. If your marker is taking 30+ (bad weather conditions can cause delayed marking) please get in contact
- Treatment of markers – Keeping your marker updated on the situation (breaks/change of shooter/falling back) ensures a better working relationship
- Some markers will attempt to give feedback so keep your radio switched on
