

PART P - DAILY PROGRAMMES

These programmes will be adhered to as far as possible but amendments may be necessary. The actual programme for each day (the Daily Detail sheets) will be posted on the Stats Noticeboard one day in advance.

The Zero Range will be open at the times shown on the Daily Detail sheets.

Practice targets are available to the schedule published by the Range Office. Please book direct with the Range Office.

Events shown in italics (eg *BCRC Meeting*) are not NRA matches.

Under 25 Team	325	Young Riflemen's Aggregate	305
United Hospitals	326	Zero	157

The 2025 NRA training programme can be viewed on the NRA website. Meantime, a refresher from the Training staff!

ALWAYS PROVE A FIREARM IS UNLOADED WHENEVER YOU PICK IT UP, OR HAND IT TO ANYONE, OR TAKE IT FROM ANYONE.

It is essential that the condition of a firearm (whether or not it is loaded) is known before being handled.

Always assume that a firearm is loaded until proved otherwise.

Unless the firearm is being fired on a range, it must never be loaded and must be seen to be unloaded and safe.

ALWAYS POINT THE FIREARM AT YOUR TARGET.

Directional control of a firearm is absolutely essential, and the only direction acceptable is toward your target from the firing point designated. The design and construction of most outdoor ranges is such that **the ability of the range to contain bullets is determined by the fact that they must be fired in a specific direction from any particular firing point.** If they are fired at an angle of elevation or azimuth which exceeds these limits the bullet may well travel beyond the range boundary.

NEVER PLACE YOUR FINGER ON THE TRIGGER UNTIL YOU ARE READY TO SHOOT.

This rule doesn't mean that the gun has to be carefully aimed at the target before the finger can be placed on the trigger, rather that the finger can be placed on the trigger when the firearm is in the shooting position pointing towards the target but before being carefully aimed.

NEVER POINT A FIREARM AT ANYONE.

This means **NEVER** point a firearm at anybody as a result of horseplay, joking, lack of discipline or lack of thought.

There are, of course, some perfectly legitimate exceptions, such as these:

- An instructor checking a student's eye alignment with the sights, under strictly controlled conditions
- Visually checking the bore from the muzzle end for obstructions or condition, on firearms such as the Ruger 10/22, where it is not possible to look through the barrel from the receiver end

RADIO CODE MESSAGES

The following code messages should be used for communication between Range Officers and the butts. The target number(s) will be given, followed by the message number, viz:

- | | | |
|---------|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Message | 0 | Raise sighting targets (Para 279). |
| | 1 | Firing about to commence. |
| | 2 | No spotting disc visible. |
| | 3 | Spotting disc unmistakably disagrees with signalled value. Check that the spotting disc shows the last shot and that the panel signals its correct value* (Para 316). The Range Officer is to view the target before passing the message. |
| | 4 | A shot has been fired but no signal has been made. Examine target carefully and signal the shot, if found, or a miss* (Para 317). |
| | 5 | Firer has challenged for a higher value for his shot. Examine the whole target and signal the correct value* (Para 319). |
| | 6 | It is suspected that there is a second shot on the target. Inspect the target for a second shot. If found mark and signal both shots. If not leave the spotting disc in the original hole.* |
| | 7 | A miss has been signalled but firer has challenged for a scoring shot. Re-examine the target carefully and signal the shot, if found, or a miss* (Para 319). |
| | 8 | The spotting disc appears not to have moved. Butt Officer is to consult marker and confirm that the spotting disc is in the latest shot hole. If successive shots have been very close to each other the RO to be advised accordingly*. |
| | 9 | Marking/shooting appears to be unduly slow. Butt Officer/Range Officer to check and correct where necessary. |
| | 10 | Stand easy. Half-mast target. |
| | 11 | Blow off shots are about to be fired. Ensure that all, or the specified, targets are fully lowered until Message 1 is given. |
| | 12 | Stand easy. Lower target, patch out and put target back up. |
| | 13 | Radio the number of hits as score board figures are not clear. |
| | 14 | Firer has challenged his score. Re-examine the target and show the correct number and value of the shots* (Para 332). |

* The result must also be confirmed by radio.
