Notes

In classified events, the overall event winner is the competitor with the highest score – regardless of class. If there is a trophy for the event, it will be awarded to the overall event winner, who may not be the winner of the highest class. Events for which a trophy is awarded are indicated with a 'T' to the right of the winner's score.

Where an event or class has only one entry, the competitor's name, GRID and score are shown in *italic text*. No medals are awarded in these cases. However, if there are two or more entries in a classified event then, regardless of class, the highest scoring competitor wins the trophy (if any) for that event.
