Notes

In classified events, the overall event winner is the competitor with the highest score – regardless of class. If there is a trophy for the event, it will be awarded to the overall event winner, who may not be the winner of the highest class.

Where an event or class has only one entry, the competitor's name, GRID and score are shown in *italic text*. No medals are awarded in these cases. However, if there are two or more entries in a classified event then, regardless of class, the highest scoring competitor wins the trophy (if any) for that event.
