

GREAT BRITAIN PALMA TEAM COACHES

NOTE: From 1877 until 1979 the Main Coach did all the wind calling and very little or no wind coaching was done by the sub-coaches who only borrowed as required on wind calls, plotted diagrams and corrected elevation. Consequently the records sometimes show a very small number of people as coaches for the years mentioned and some firers sub-coached and shot.

The first team to use the modern method, where the sub coaches wind coached and did all the rest, was in 1982.

From 1877 - 1979 those denoted * were Main Coaches and the remainder are sub coaches. From 1982 sub coaches also wind coached.
